

Ordering Tests

Requisition Information

All specimens delivered to the laboratory must be accompanied by an order (physician script, paper requisition, electronic order).

Minimum information required:

- Patient name
- Date of birth or identification number
- Sex
- ICD-10 code or diagnosis narrative
- Physician's name
- Test(s) requested
- Insurance information
- Date and time of specimen collection
- Specimen type-required for microbiology and pathology
- Physician signature is NOT required for OP lab orders

Add-on Orders

Call Customer Support at 314-996-4522 for requesting additional testing to previously submitted specimens. Confirmation of verbal add-on testing needs to be faxed to 314-996-6924.
